PROFESSIONAL EXPERIENCE

December 2023

La Vengeance de Metella 

Side-scroller / Labyrinth

3 month project for the Montpellier Opera / **Team of 11 people**

I worked on mechanics design and the 3Cs

PROJECTS

May 2026

F*** This Job 

First-person shooter :

9 month graduation project / **Team of 24 people**

I worked on mechanics design and the 3Cs, and I was responsible for the entire Level Design.

April 2026

Splinter Cell : Prototype 

Third-person stealth game :

3 month personal project

I designed a light detection mechanic by leveraging the functionality of the Unreal Engine lighting system.

March 2026

TikiVolcano 

Third-person platformer :

3 month personal project

Development of a "Hub" creation tool (Warp Room type) and implementation of a global progression save system.

January 2025

Exercice Enviro Storytelling 

First-person horror game :

1 week team project / **Team of 10 people**

Established the 3Cs and Level Design, ensuring constant communication of design intent for each room with the art team.

June 2024

Heart of Darkness Remake 

Third-person platformer :

1 month team project / **Team of 15 people**

I handled the Level Design, worked on mechanics and 3Cs design, and also created the cinematics. The project was later evaluated by Éric Chahi.
